

How has

[contact us](#)

The Sandhill Crane become the oldest bird species on earth?

They are engineered to endure. Over the last 10 million years only slight adaptations to their wingspan have been required to keep the species thriving.

Endurance. Evolved.

Crane Modernizations

Similarly, the steel structures of most older cranes retain their integrity, and require mostly small adjustments in reach, location or machinery to increase the crane's longevity.

Adapt and thrive

Konecranes is the premier port services provider to brownfield terminal developments. Our range of retrofit products will enable your fleet to adapt to a fast-changing environment. Welcome to your evolution.

Complex & Custom Modernizations

Our dedicated Port Services engineering team offers a wide range of complex port crane modernizations and relocations.

Custom Modernizations

- Complex once-off modernization cases. For example:
- Crane height and outreach modifications
 - Lifting capacity increases
 - Operational mode changes (e.g. from containers to bulk)
 - Machinery upgrades
 - Crane relocations

AB
Any Brand

This technology can be applied to all Konecranes cranes, as well as other crane brands.

RTG
Rubber-Tyred Gantry

STS/GU
Ship-to-Shore Grab Unloader

RMG
Rail-Mounted Gantry

SC
Straddle Carrier

MHC
Mobile Harbour Crane
