

Expert Inspections

OEM-grade insight on the condition of your equipment assets.

Ordering an expert inspection is an important response to:

Ensure safety

- Near-miss equipment safety incident
- Safety incidents follow a repeat pattern

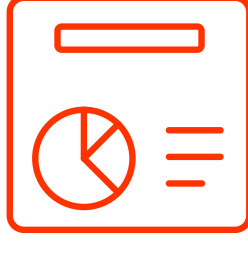

Plan maintenance effectively

- Need for objective review of fleet condition
- Budget and plan for major repairs
- Review performance of maintenance systems

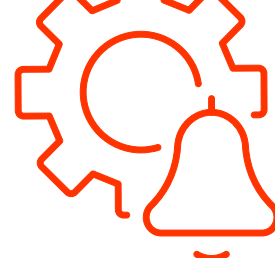

Manage cost & risk

- Repeated unresolved fault codes
- Repeated breakdowns
- Sub-standard equipment performance

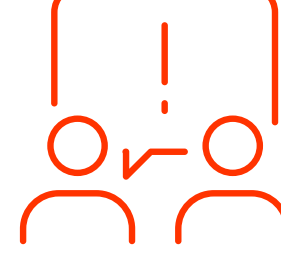

A Konecranes inspection delivers:

Actionable Report

Safety Notification

Follow-up Condition Consultation

Why Konecranes?

When you choose Konecranes for your crane inspections, you're getting more than just a service – you're getting OEM quality, technology, and expertise. Our trained inspectors, all top-tier crane technicians, deliver inspection reports and diagnoses that provide actionable insights into your equipment's condition. Where possible, we also enrich each inspection with the asset's complete service and repair history.

A comprehensive picture of the crane's condition is the beginning of safer more predictable operations and more accurate and effective maintenance planning.

Gain peace-of-mind with a multi-year inspection agreement:

- We maintain a regular condition and/or service inspection schedule
- We ensure they are conducted well in time for any statutory requirements
- We proactively communicate critical condition information to your team
- You save time and money

Configured and Comprehensive

Our sales team will configure the inspection based on the specific needs of your operations. Every inspection contains a broad all-areas approach which is then enhanced with inspection checklists configured to your crane's age, condition and history.

- ✓ Wire Rope
- ✓ Advanced Mechanical
- ✓ Safety Features
- ✓ Hybrid Battery
