

# Expert Inspections

Know the current condition of your crane and components, and minimize downtime – safely.

## Ordering an expert inspection is also an important response to:

### Ensure safety

- Near-miss equipment safety incident
- Safety incidents follow a repeat pattern

### Plan maintenance effectively

- Need for objective review of fleet condition
- Budget and plan for major repairs
- Review performance of maintenance systems

### Manage cost & risk

- Repeated unresolved fault codes
- Repeated breakdowns
- Sub-standard equipment performance

OEM-grade insight, quickly delivered.

Actionable Report

Safety Notification

Follow-up Condition Consultation

## Why Konecranes?

Our trained inspectors, all top-tier crane technicians, deliver inspection reports and diagnoses that provide actionable insights into your equipment's condition and remaining life. Where possible, we also enrich each inspection with the asset's complete service and repair history.

Knowing the remaining lifetime of your equipment is the beginning of safer more predictable operations and more accurate and effective maintenance planning.

## Gain peace-of-mind with a multi-year inspection agreement:

- We maintain a regular condition and/or service inspection schedule
- We ensure they are conducted well in time for any statutory requirements
- We proactively communicate critical condition information to your team
- You save time and money

## Configured and comprehensive

Our sales team will configure the inspection based on the specific needs of your operations. Every inspection contains a broad all-areas approach which is then enhanced with inspection checklists configured to your crane's age, condition and history.

- ✓ Wire rope
- ✓ Advanced mechanical
- ✓ Advanced electrical
- ✓ Safety features
- ✓ Hybrid battery
